

# L-Lysine

The first essential limiting amino acid in feed protein

We offer L-Lysine in different forms and purities, including L-Lysine hydrochloride and L-Lysine sulfate.

**PRODUCED BY MEIHUA – ONE OF THE WORLD'S LARGEST  
MANUFACTURERS OF LYSINE**

## L-Lysine HCl

Kind of product: Feed Additive

Class : Feed Grade

Target Use : Animal Nutrition

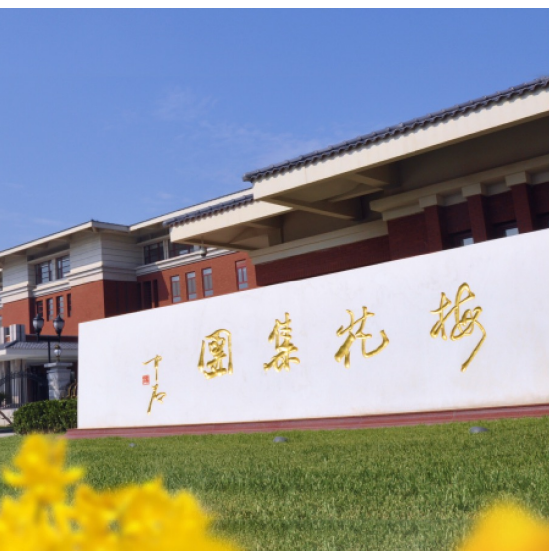

Item	Specification
Appearance	White or light brown granule or powder
L-Lysine HCL content	≥98.5%
L-Lysine content	≥78.8%
Specific rotation	+18.0° ~ +21.5°
Loss on drying	≤1.0%
Heavy metals (as Pb)	≤10 ppm
Arsenic (As)	≤1.0 ppm
Ammonium Salt	≤0.04%
Residue on ignition	≤0.3%

Dosage Poultry : 1-3% per ton of feeds

Dosage Swine : 1-3% per ton of feeds

Packaging. : 25-kg PP Woven Bag/ 750-kg Big Bag

Shelf Life : 2 years

## Why Us?

### ✓ High-Quality Raw Materials

Our products are made with raw materials sourced from the prime corn-growing region, ensuring both their safety and natural quality.

### ✓ Advanced Technology

Our use of advanced production processes and natural bio-fermentation guarantees the quality and stability of our products.

### ✓ Scale Advantage

With a fully integrated supply chain, we are able to produce high-quality amino acid products on a large scale, meeting the diverse needs of
